SOLUTION

STREAMLINED SERVICE ISSUE RESPONSES

Service Manager allows you to create, update, and resolve service issues and track everything from maintenance work to regular office tasks.

INTUITIVE MOBILE APPS

rmAppSuite Pro allows you to complete inspections; add, edit, and complete service issues; and enter meter readings all from your mobile device.

rmResident empowers residents to submit maintenance requests and attach photos of the issues directly from their smartphones.

ADVANCED UTILITY-BILLING

Quickly process metered utilities in states and communities that require special calculations with our easy-to-use **Metered Utilities Plus** module.
